

## MATH GAME

The illustration shows an underwater world with a blue background and a sandy ocean floor. At the top, the text "MATH GAME" is written in large, white, bold letters. Below the title, there are three math problems involving colorful submersibles:

- Two yellow submersibles are shown with a plus sign and an equals sign followed by the number 6:  $2 + 4 = 6$ .
- A red submersible and a yellow submersible are shown with a minus sign and an equals sign followed by the number 2:  $3 - 1 = 2$ .
- A purple submersible, a red submersible, and a yellow submersible are shown with plus signs and an equals sign followed by the number 9:  $3 + 3 + 3 = 9$ .

At the bottom of the page, there is a row of numbers from 0 to 9. Above each number is a white circle, and above each circle is a small illustration of a submersible. The submersibles are colored red, purple, and yellow, matching the ones in the math problems above. The numbers are written in a simple, white font.
